

TERRANOVA NEXT
MOVE YOUR STUDENTS FORWARD
WITH TERRANOVA NEXT

TerraNova NEXT, the newest offering in the TerraNova assessment family, is a standardized, norm-referenced achievement test based on the same comprehensive psychometric framework that you have come to expect from TerraNova3.

TerraNova NEXT uses the same scale of measurement, proficiency-level classifications, and national norms as TerraNova3 and provides a comprehensive set of objective performance and associated mastery-level information for objectives aligned to National Standards and the College and Career Ready standards.

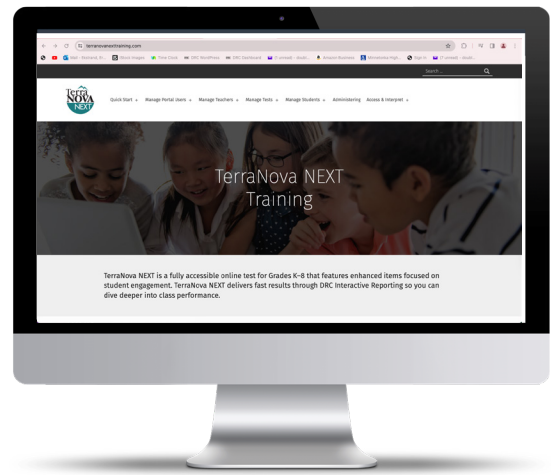

Interactive reporting data includes the ability to track performance at the student, class, school, and district/diocesan level. TerraNova NEXT is available at grades K–8 in online or paper/pencil format.

Multiple Purposes, Maximum Flexibility

TerraNova NEXT can be administered at any time throughout the school year. TerraNova norms have been built to provide national comparison feedback that adjusts for the week of instruction in the school calendar year that you administer the test. This provides schools with maximum flexibility to test for multiple purposes and as desired (competitive entry screening, school placement, fall diagnostic, or as a summative assessment).

Engaging Items, Precise Measurement, and Fast Results

TerraNova NEXT was designed with multiple item types to reach advanced depths of knowledge and thinking skills using selected response, evidence-based response, and multi-part/multi-select items. All items are autoscored to provide quick turn around time for reporting. If you are testing online, student scores are available within 24 hours of testing on the group list report.

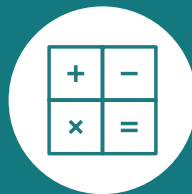

To learn more about the reports available for TerraNova NEXT, please visit our training website: www.TerraNovaNEXTtraining.com or ask your local assessment consultant for a live system tour.

SUBJECT AREAS AND GRADES

Reading
(Grades K–8)

Mathematics
(Grades K–8)

Language
(Grades 3–8)

Science
(Grades 1–8, Paper and Pencil)
(Grades 3–8, Online)

Social Studies
(Grades 1–8, Paper and Pencil)
(Grades 3–8, Online)

Testing Times

Subtest	Level 10 (Grade K)	Level 11 (Grade 1)	Level 12 (Grade 2)
Reading, Part 1	35 minutes	35 minutes	40 minutes
<i>Break</i>			
Reading, Part 2	35 minutes	35 minutes	40 minutes
Mathematics, Part 1	25 minutes	25 minutes	25 minutes
<i>Break</i>			
Mathematics, Part 2	25 minutes	25 minutes	25 minutes
Science	N/A	20 minutes	25 minutes
Social Studies	N/A	20 minutes	25 minutes
Total Testing Time	2 hours	2 hours, 40 minutes	3 hours

Subtest	Levels 13–18 (Grades 3–8)
Reading, Part 1	40 minutes
<i>Break</i>	
Reading, Part 2	40 minutes
Language	40 minutes
Mathematics, Part 1	15 minutes
<i>Break</i>	
Mathematics, Part 2	40 minutes
Science	40 minutes
Social Studies	40 minutes
Total Testing Time	4 hours, 15 minutes

Paper and Pencil

ITEM TYPES

Selected Response

Multiple Choice: Questions that require students to identify one correct answer

Multi-Select: Questions that require students to identify more than one correct answer

Evidence-Based Selected Response: Combines a selected-response question (Part A) with a second selected-response question (Part B) that requires stated or inferred evidence from the text supporting the answer in Part A

Why Choose TerraNova NEXT?

TerraNova NEXT provides accurate measurement of important skills and knowledge, helping educators understand how their students are progressing toward standards and performing relative to a norm group of their peers. The TerraNova NEXT assessment:

- **Meets your needs** with fewer assessments: it provides a more simplified and streamlined assessment solution.
- **Maintains norm references** and is more aligned to college- and career-ready indicators, but without the additional test items.
- **Saves time:** there are no longer any hand scoring requirements as the tests are now 100% autoscored.
- **Provides fast turnaround of results:** all data and reports are available in DRC Interactive Reporting for educators to dive deeper into district/diocese, school, student, and class performance.
- Has the same **technically sound, reliable, and valid** qualities that you have come to expect from TerraNova3: it continues to provide norm-referenced, criterion-referenced, and proficiency/performance-level data for your program.
- **Ties to the DRC BEACON interim assessments**, allowing you to integrate both assessments as part of a through-year assessment approach.

Most importantly, with its streamlined design, TerraNova NEXT helps students and teachers take the next steps toward college and career readiness faster than ever.
